

Health Savings Accounts (HSAs) For Employers

Offer Greater Savings for HDHP Participants!

At a time when health insurance premiums are rising, HSAs provide employees relief in the form of tax savings for qualified healthcare expenses.

Out of all Consumer-Driven Accounts (CDAs), HSAs provide the most financial freedom since an employee chooses when they are ready to use their funds.

User-Friendly HSAs that are Easy to Setup and Manage

- ✓ Smarter onboarding with online enrollment
- ✓ User-friendly mobile app and participant web site
- ✓ Support staff available throughout plan lifecycle – *from pre-enrollment and beyond*
- ✓ Stackable debit card with 24/7 access to IVR service support
- ✓ Simplified ways to interact with CDA funds, transactions, and investments
- ✓ Intuitive plan management tools

Plus, we are a preferred HSA banking vendor for Health Care Service Corporation (HCSC), who operates Blue Cross and Blue Shield (BCBS) plans in IL, MT, NM, OK & TX.

It's Easy to Get Up-and-Running

Flex is here to help your employees get a great benefits experience while saving and spending healthy. We offer enrollment meetings and other educational resources to help boost employee participation.

Our Commitment to Continuing Education Extends to our Employer Clients

We understand that it is hard to keep up with the rapidly changing healthcare industry. That is why, Flex offers education on various topics, including Healthcare Reform, Reporting Requirements, Consumer-Driven Best Practices and more year-round! In fact, our employer clients can earn free credits with **HRCI**® and **SHRM**® through our accredited **FlexUNIVERSITY**® series of webinars

Help employees **Save & Spend Healthy** with an HSA from Flex!

Stack it Up on the Same Debit Card

An HSA pairs well with a Limited Purpose FSA so that an employee can cover their immediate dental and vision costs but still set tax-free money aside in their account for other healthcare expenses
