

Seamless Health Plan & HSA Experience

HSA access now available from BCBS member portals in IL, MT, NM, OK & TX

Secure, Single Sign-On Feature

Flexible Benefit Service Corporation (Flex) seamlessly provides access to our Health Savings Accounts (HSAs) within the member portals of Blue Cross and Blue Shield plans in select states. This feature is called Single Sign-On (SSO) and is a secure way to help participating BCBS members navigate online to their HSA.

HSA Information Just One Click Away

The SSO feature gives BCBS members the ability to easily access their HSA information at **myflexaccount.com** with a single click from the Blue Access for Members (BAM) web site without needing to provide additional sign-in credentials.

Coming Soon: Web Services!

HSA account holders with Flex will soon be able to view their balance information and high-level transaction details directly on the BAM web site.

To learn more, contact your Flex sales consultant.
