Save up to 30% on everyday health care expenses!

A Flexible Spending Account (FSA) is an employer-sponsored benefit that allows you to pay for certain eligible expenses using money that is not taxed. FSAs are a great way to save money while keeping you and your family healthy and protected.

There are three types of FSAs. A Health Care FSA lets you pay for eligible medical, dental and vision care expenses that are not covered by your insurance plan. A Limited Purpose FSA is generally used by individuals enrolled in a qualified high-deductible health plan with a Health Savings Account (HSA) and reimburses eligible dental and vision expenses only. A Dependent Care FSA allows you to use tax-free dollars for qualified child or elder care expenses.

Why You Need It

- ✓ A smart way to plan for expected health care and dependent care expenses
- ✓ Save up to 30% on a variety of eligible expenses
- ✓ Increase your take home pay by reducing your taxable income
- ✓ Easy and convenient access to FSA funds and account information

You could save up to **\$600** each year with an FSA!

FSA with Flex Card

How it Works

You decide how much to contribute to the FSA. The amount you elect is divided up over your pay periods for the year and deducted from your paycheck before any payroll taxes are applied. You can use your FSA to pay for eligible expenses for you and all of your dependents, even if they are not covered under your primary health plan.

How You Use It

Flex makes it easy to access your FSA with the convenience of the Flex Card. The card allows you to pay for eligible expenses directly from your FSA, avoiding out-of-pocket expenses, cumbersome paperwork and reimbursement delays.

How You Manage It

Get account information anytime with our easy-to-use web site and mobile app. See your account balance in real time, file a claim for reimbursement and check on claim status. You can receive real time information and important updates via email or text message, and with our proactive texting feature, simply text "BAL" to receive a real time account balance.

How You Plan

You should look at your expected out-of-pocket expenses for the upcoming year to properly plan ahead. Be conservative with your election, because IRS rules state that you must forfeit any unused funds at the end of the plan year. For the most part, FSA elections are final and cannot be changed during the plan year.

How Much Can You Save?

The example below illustrates how much you can save by participating in the FSA

Without FSA	
Your gross annual pay	\$35,000
Estimated tax rate (30%)	-\$10,500
Your net annual pay	\$24,500
Your annual healthcare expenses	-\$2,000
Your final take-home pay	\$22,500

With FSA	
Your gross annual pay	\$35,000
Your annual FSA Election	-\$2,000
Your adjusted gross pay	\$33,000
Estimated tax rate (30%)	-\$9,900
Your final take-home pay	\$23,100

In this example, you'd take home \$600 more with an FSA!
